First orders 3

The Comptroller whose opinion on the subject of the increase recommended by the Commissioner of the Bangalore District was invited, states that an accountant on Rs 15/- per mensem is absolutely necessary for the Savings Bank work in the Treasury but that the increase proposed for the Treasury accountants is a general question to be considered in connection with the general revision of the District Treasury Establishments.

The additional hand on Rs: 15 appointed as above may be sanctioned, as the Comptroller's recommendation in that behalf was made so far back as June 1895 and as work in the Bangalore Dt Treasury is reported to have increased considerably — the additional cost may be incurred this year from Savings Bank and included in the Budget of the next year — 9/12/96

the Treasury officer and his clear Explanatory letter show that in the Bangalore District separate set of officials are required for the daily transaction of business and for preparation of the periodical returns. I beg therefore that the Comptroller will be pleased to take the case of this District Treasury into his early consideration and obtain sanction for their proposals without postponing the subject till the complete revision of the District and the Taluk Establishments in Contemplation is matured.

A Copy of letter No. 6440 dated 16th January 1896 from the Treasury Officer representing the inadequacy of the present Establishment to cope with the increase of work which it has to deal with. The letter is accompanied by two statements which fully explain details. Anyone acquainted with the difficulty that is experienced period after period when each successive return becomes due in the Savings Bank Branch will be able to say that the strengthening of the branch as proposed by the Treasury Officer is on a very moderate scale and the establishment will only be just adequate. Similar is the difficulty in getting up the deposit accounts. By the time the officials complete any one period return, the next one will be over due. This state of Chronic backwardness is due entirely to the disproportionately heavy Work which has devolved on the officials. The Statements submitted by

place here to state that the living at Bangalore is very expensive and that the increase proposed after a very careful investigation into the work turned out by each account ant. and in the interests of the Treasury department where trustworthy and hardworking officials are very much necessary will not be considered high and needless.

I submit herewith a statement showing the present and proposed establishment for your Consideration and submission to Government with your support. The additional hands required are four and the increase of Salary proposed to deserving and hard working officials is Rs 105/- per mensem or Rs 1260 per Annum.

This subject was brought to the notice of the late Mr Shujaet ali Khan long ago who called for certain returns in connection therewith, but was not able to place the matter before the Government from continued ill health.

It will not be out of place here

Bangalore District Treasury.
Dated 16th January 1896.

To The Deputy Commissioner
Bangalore District.

Sir,

I have the honor to bring to your notice the utter inadequacy of the present Establishment attached to the District Treasury and the Consequent difficulty experienced in getting through the work devolving on it Satisfactorily.

The Treasury Department was reorganized in 1879 and the Scale of graded pay was done away with retaining only as much establishment as was actually then required for the purpose. Since then a change for the better has gradually taken place and new modifications in the system of keeping accounts have been introduced and new departments have been formed. Thus

work.

work in all the existing branches of the District Treasury has so far increased that it has now become a growing burden upon the present existing establishment to get through the each days work. That I apprehend correctness, method and efficiency in keeping accounts are likely to suffer if this state of things continues. Hence I make the following respresentations:—

The correct and proper maintenance of accounts through distributed among the accountants has however to be done by them in addition to their every days transaction work; which in itself is difficult to get through by the evening and consequently involves extra time and labour on the staff.

The formation of separate new offices such as the Police, Forests, Excise Nurseri, Special offices and so on has largely increased the departmental transactions involving a similar increase of accounts and Correspondence.

Sir,

I have the honor to report that shortly after I joined this District, it was represented to me that the present District Treasury Establishment is very inadequate to cope with the ever increasing transactions, and that the Establishment has very much outgrown the state of things existing at the time when the scale thereof was fixed.

1879

2. The Officer in charge of the Treasury has lost no suitable opportunity of bringing to notice the above facts to my predecessors, and the enclosed copies of correspondence

will shew the opinions expressed by those officers. Mr. Purnaiya's views are stated in detail with his experiences of another District besides Bangalore.

3. At Mysore, the transactions are not much larger than here, but the Establishment provided therefor is noted in the margin, and is in excess of that for Bangalore.

4. I have had to enquire into the cause of certain delays in the Treasury brought to my notice and the invariable explanation is that the Establishment is deficient.

5. I had hoped that the actual wants of the Treasury and other branches

It is needless to discuss the increase of work under each head and my humble experience of the treasury work both here and elsewhere goes to show that the work at Bangalore is the heaviest and that the officials who have no scope for advancement are over worked (vide statement of work appended to).

I may here state that as new departments are growing and work is increasing, the checking and supervising staff at the higher offices is being increased from time to time and a system of graded pay is being introduced further a separate department has been formed for the Municipal and Local Fund branches whilst no attempt is made to improve the existing staff both here and in the Taluk treasuries where no original work and actual transactions have to be carried on in addition to

submission of periodical accounts.

The centralized system of control introduced in the excise department in its transactions with Messrs Barry & Co has necessitated the opening of a set of fresh accounts. The Life Insurance department which is new in its kind requires a set of fresh accounts. The Nesserpatta water-works, the Sanitary Engineer's office, the House-building and well Sinking advances require each a different set of accounts.

The change effected in the Postal System has necessitated the opening of a new credit system with Post-Masters and the rendering of accounts to the Resident's Treasury. Above all the transactions of the Savings Bank, which in 1879 was only a lakh and a half, has now come up to something like twelve lakhs, and all these mean increase of work and

SIR,

In continuation of my letter
No. 7407 dated 21st January 30
requesting that the sanction
of Government may be
obtained to the entertainment
of an additional Accountant
for the Account Branch of
the Shimoga District
Treasury on Rs 15 per
mensem for conducting
the Savings Bank work
I have the honour to
recommend that the
Account Branch of the

Bungalow this last Session may similarly be strengthened in the Savings Bank work in that Treasury has greatly increased and the Treasury officials find it very difficult to maintain all the necessary accounts and ledgers without falling into arrears.

I have &c

The Deputy Commr Bangalore dtd

[illegible]

having in his letter No 1205 dated 10th June last, submitted proposals for the increase of pay of the existing establishment of the District Treasury Department and for the entertainment of additional hands on Rs 30, the Comptroller has requested to submit his opinion on the subject. The Govt, [illegible] state that the entertainment of an additional hand on Rs 15 per mensem is absolutely necessary in connection with the Tarrikere Bank work and that the question of increase of pay to the existing establishment may be considered in connection with the general revision of the District Treasury establishment.

The Govt are, accordingly, pleased to sanction the entertainment of an additional accountant on Rs 15 per month for the Tarrikere Bank
